(Renovation Project)

### PROFESSIONAL EXPERIENCE

#### Bytewise Limited

Internship | March 2023 - June 2023

- Led front-end development across multiple projects.
- Maintained consistent user experiences through responsive design.
- Practiced Agile methodologies for timely delivery.
- Utilized React.js to create smooth and responsive designs in various web projects.
- Developed a robust backend using Node.js and MongoDB.

#### MoneyMegaMarket UK

Part-Time | Jan 2023 - July 2023

- Creating website content using SEO-optimized articles with the aim to rank within the top 10 results on Google Search.
- Crafted UX writing for company services.
- Utilised 2000+ organic keywords to maximise website reach.

### PROJECTS

- eCommerce Store: Integrated modern UI/UX principles followed by styled components for the design. Used Redux for efficient state transfer while Node.js REST API handles authentication, and communication between the frontend and backend. Additionally, the integration of the Stripe payment gateway ensures secure payment processing
- MyFit: A fitness app powered by APIs for accessing customized gym exercises based on user requirements.
- Nike eCommerce Store: An online store dedicated to selling Nike products, offering a wide range of apparel, footwear, and accessories.
- DailyPulse News App: A web application providing users with up-to-date news articles and headlines from various sources.
- Social Media App: Facilitates user interaction through posts sharing, commenting and liking followed by user authorization.
- Bank UI Design: Designed visually appealing bank application using ReactJs through thoughtful layout and color schemes.
